

## Your future at your fingertips: cooperative, international, global Senior Software Engineer (m/f/x)

MIC is leading worldwide in the automation of global customs and trade compliance processes. With our software solutions, we ensure safe and efficient customs clearance within the legal frameworks for more than 800 customers - like VW, Zalando, IKEA - on 6 continents.

**Advance MIC's services by developing superior trade content solutions through meticulous design and engineering. - Join us to drive innovation and excellence in our services!**

### Your job

- 🌐 As a Senior Software Engineer you will develop valuable solutions with technical excellence by collaborating with various, international stakeholders within the MIC group
- 🌐 Design, engineer, and develop trade content solutions to enhance MIC's services in line with market needs and design user interfaces for our trade content solutions.
- 🌐 Define product specifications, features, and performance requirements based on market demands
- 🌐 Conceptualize and develop automated software solutions, including data pipelines
- 🌐 Extend and maintain our architecture concept for the Trade Content Module
- 🌐 Engineer and develop software solutions, data models (datasets), automated test cases, web scraping with Python
- 🌐 Generate creative and innovative ideas for new products or product enhancements
- 🌐 Create prototypes and conduct testing to validate product designs and functionalities
- 🌐 Monitor product development timelines and quality standards

### Your skills and qualifications

- 🌐 Hands-on experience with web scraping using Python, Java/JavaScript, SQL, PLSQL, Clickhouse, Oracle DB, and Kubernetes
- 🌐 Bachelor's degree in software product design, engineering, computer science, business informatics, artificial intelligence, or similar with a focus on data science plus 3-5+ years of related experience
- 🌐 Strong understanding of product development processes, data visualization, and analytical evaluations including time series analysis

- 🌐 Proficiency in product design software and tools, as well as software architecture
- 🌐 Strong problem-solving and analytical skills with attention to detail
- 🌐 Creative mindset with a passion for innovation and continuous improvement
- 🌐 Ability to work independently and as part of a team
- 🌐 Effective communication and interpersonal skills
- 🌐 Knowledge of ERP systems
- 🌐 Familiarity with agile development environments (e.g., SCRUM, KANBAN)
- 🌐 Proficient in English (spoken & written)
- 🌐 Understanding of economic processes
- 🌐 Excellent project management skills

### We offer you

- 🌐 Privately owned, stably growing company with HQ in Linz/Austria
- 🌐 World market leader with 11 offices on 3 continents
- 🌐 Cooperative, appreciative and respectful teamwork
- 🌐 International context with multinational customers
- 🌐 Professional on-boarding, MIC Academy training
- 🌐 Individual career paths
- 🌐 Various benefits: Bonus payment, annual leave, payed sick leave, provident fund, permanent employment.
